EXPLANATION OF TERMS USED IN THE COURSE CATALOG

THE CURRENT COURSE CATALOG IS A WORK IN PROGRESS THAT WILL CONTINUE TO BE UPDATED AND MODIFIED AS TAHQUITZ GROWS AS A SCHOOL.

College Preparatory - Courses designed to prepare students for admission to college in an academic subject area (math, science, social studies, English, foreign language). A student with good skills and high interest in a subject may take college prep courses even if he/she does not plan to attend college. College Preparatory classes meet the A-G requirements of the UC/CSU system. Each College Preparatory course will indicate which of the A-G requirements it meets, e.g., “COLLEGE PREP – UC REQ/B.”

NCAA - NCAA courses are maintained as a guide for prospective student athletes who are seeking NCAA eligibility. These courses are from the four core areas of English, Social Science, Math, and Science. In general, you need either 14 or 16 core courses with a 2.0 or better GPA to be eligible. Specifics differ case by case and whether you are looking at a Division I or II school. See counselor and/or NCAA website for more info.

Elective - Courses that are not specifically required. A student may choose to take an elective course because of his/her interest in the subject.

Prerequisite - A course that must be taken or a condition that must be met before enrolling in a more advanced class. Example: Spanish 1 is a prerequisite for Spanish 2.

Essential Standards (ES) – This level course meets minimum state and district grade level standards and requires IEP or 504 documentation. It is not recommended for college-bound students.

Content Standards (CS) – This course meets minimum state and district grade level standards and requires IEP or 504 documentation. It is not recommended for college-bound students.

Fundamentals – Is the least rigorous of all course levels, and does not meet grade level standards. These courses will not meet standards required for passing the California High School Exit Exam and require IEP or 504 documentation. They do not count for English credit towards graduation.

GENERAL INFORMATION

- All courses taught at Tahquitz High School are aligned to the California Content Standards. Teachers will provide a course outline at the beginning of each semester.
- Courses that meet the UC approved A-G requirements are indicated throughout the course catalog.
- Tahquitz High School is developing a comprehensive A-G List to meet the criteria outlined by the College Board. Counselors, students and parents will ensure that all students are on track in meeting the necessary requirements.

Expected School-Wide Learning Results & Measurable Indicators (ESLR’S)

High School Graduation Requirements

Hemet Unified School District Governing Board Policy #BP6146.1 (a)

High school graduation shall be contingent upon the satisfactory completion of the required number of units, the specified course requirements or standards and the prescribed course of study. Graduation shall be recognized by the granting of a diploma by the Governing Board upon the recommendation of the school principal. The principal shall recommend for graduation from high school only those persons who have met the requirements as stated by the State Board of Education and the Governing Board of the Hemet Unified School District. No student shall participate in the graduation ceremony if he/she has not satisfied the graduation requirements. (Education Code 51215-51218)

Units of Credit Required for Graduation

The district requires a student to successfully complete 220 credits in grades 9-12 for graduation and with an exception of the alternative high school an overall grade point average of 2.0.

Required Courses to be Taken/Passed for Graduation

To obtain a diploma of graduation from high school, students, shall complete at least the following courses in grades 9-12, with each course being one year unless otherwise specified.

1. ENGLISH – A student must pass 40 credits of English in grades 9-12 and be enrolled in English every semester.
2. MATHEMATICS – A student must pass 30 credits of mathematics in grades 9-12, including the following specifically required courses.
 - a. Algebra 1 –At least one mathematics course or a combination of two mathematics courses shall meet or exceed state academic content standards for Algebra I. If any student completes coursework in grades 7 through 12 that meets or exceeds state academic content standards for algebra, those courses shall apply toward satisfying this mathematics requirement. (Education Code 51224.5)
 - b. Geometry.
3. SCIENCE – A student must pass 20 credits of science in grades 9-12. Ten of those credits are in Life Science and 10 credits in Physical Science.
4. SOCIAL SCIENCE – A student must pass 30 credits of social science in grades 9-12, including the following specifically required courses:
 - a. Two semesters of World History, Culture and Geography
 - b. Two semesters of U.S. History and Geography
 - c. One semester of American Government and Civics
 - d. One semester of Economics
5. VISUAL OR PERFORMING ARTS OR FOREIGN LANGUAGE – A student must pass 10 credits in fine arts or foreign language in grades 9-12.
6. PHYSICAL EDUCATION – A student must pass 20 credits of P.E. in grades 9-12. Every student must enroll in a course in Physical Education in grades 9 and 10 unless exempt pursuant to Education Code 51241.

CALIFORNIA HIGH SCHOOL EXIT EXAM FOR THE . Each student completing grade 12 shall successfully pass the state exit examinations in language arts and mathematics as a condition of high school graduation. Students shall take the exit examination in grade 10 and may take the examination during each subsequent administration until each section of the examination has been passed. (Education Code 60851)

A Student in the tenth grade shall be defined as one who has:

- Completed the 9th grade course of student and/or,
- Enrolled in a 10th grade course of study

(cf. 6146.4 Differential Graduation and Competency Standards for Students with Disabilities)

(cf. 6159 – Individualized Education Program)

(cf. 6162.5 – Student Assessment)

Supplemental instruction shall be offered to any student who does not demonstrate “sufficient progress,” as defined in Board policy, toward passing the exit examination. (Education Code 37252, 60851) “Sufficient progress” shall be defined as scoring less than at “basic” as determined by the cut points on the California State Standards tests in grades 6-9 for language arts and math, and failing to secure a passing score on the High School Exit Examination in grades 10-12.

(cf. 6142.7 – Physical Education)

(cf. 6146.1 – Exemptions from Course Requirements)

(cf. 6146.3 – Reciprocity on Standards of Proficiency / Graduation Requirements)

(cf. 6146.5 – Standards of Proficiency)

(cf. 6176 – Weekend/Saturday Classes)

(cf. 6177 – Summer School)

(cf. 6179 – Supplemental Instruction)

Requirements for graduation and specified alternative means for completing the prescribed course of study shall be made available to students, parents/guardians and the public. (Education Code 51225.3)

Foreign exchange students may receive honorary diplomas pursuant to Education Code 51225.5.

(cf. 6145.6 – International Exchange)

Students who complete all requirements for a high school diploma and demonstrate mastery of the curriculum in at least six subject matter areas may qualify for an honors diploma. (Education Code 51450, 51451)

The Golden State Seal Merit Diplomas shall be issued to eligible students who demonstrate mastery of mathematics, English language arts, science, United States history and two subject matter areas selected by the student. (Education Code 51450, 51451)

(cf. 5126 – Awards for Achievement)

Notifications

At the beginning of each school year or at the time a student transfers into the district, the Board shall provide written notification to all students in grades 9 through 12 and to their parents/guardians that, starting in the 2005-06 school year and each year thereafter, each student completing the 12th grade shall be required to successfully pass the state high school exit examination as a condition of graduation. The notification shall include, at a minimum, the date of the examination, the requirements for passing the examination, and the consequences of not passing the examination. (Education Code 48980, 60850)

(*cf.* 5145.6 – Parental Notifications)

(*cf.* 6162.5 – Student Assessment)

TESTS

College entrance also involves taking the SAT I, or ACT. University of California campuses require SAT II tests as well. Be sure to see your counselor regarding test requirements for the college you plan to attend. Students should plan to take these tests in the spring of the junior year. SAT's, and ACT's may be repeated in Oct., Nov., and Dec., of the senior year if necessary.

College bound sophomores and juniors should plan to take the PSAT/NMSQT in October and then the SAT I/II in May and June of the junior year.

- ♦ **ALL 9-11 graders will take the state mandated CAT6/Standards tests in April/May.**
- ♦ **The California High School Exit Exam (CAHSEE) is given in November, March and July. Students must pass tests in English-Language Arts and Mathematics in order to earn a diploma.**

FINANCIAL AID INFORMATION

A number of grants, scholarships, and loans will be available to our seniors through federal, state, and local agencies. Specific financial aid information will be made available in the Senior Bulletin and numerous student and parent workshops. See your counselor for information and applications.

CITIZENSHIP REQUIREMENTS

Satisfactory citizenship is a requirement up to and including the final graduation ceremony.

(NOTE: Some District graduation requirements may be waived or adjusted for transfer students and in certain exceptional cases when recommended by the Guidance Council and approved by the Principal.)

All stakeholders on the Tahquitz staff are working on creating ESLR'S that will guide our efforts at promoting learning that is relevant, rigorous, and applicable to the personal and professional goals of students and staff.

California State University and University Admission Requirements:

Admission to the California State University (CSU) system is based on high school coursework, G.P.A. in grades 10-12, and scores on the SAT or ACT. Some CSU campuses and some majors have additional criteria for selection. In contrast to the UC system, CSU schools do not currently use the

SAT Writing section or the ACT Writing score for admission purposes. See your counselor for further information.

Minimum courses required for admission to the California State University system also follow the A-G requirements listed above for the UC system. There are, however, a couple of minor differences in how these requirements can or need to be met. As with UC schools, in order to fulfill the “A” requirement the CSU system requires two years of History/Social Studies, including one year of U.S. History or one-half year of U.S. History and one-half year of Civics or American Government. According to CSU guidelines, however, the second year does not have to be in World History, Cultures, or Geography and can include any other approved course listed in the “A” or “G” subject areas. In regard to Laboratory Science, CSU requires one year of physical science and one year of biological science. One of these courses must be from the “D” subject area, while the other can be from either the “D” or “G” area.

**CAREER/INTERESTS/APTITUDE
TESTS AND INFORMATION ARE AVAILABLE**

THESE ARE AVAILABLE ON REQUEST IN THE CAREER CENTER

TESTS / SURVEYS:

ASVAB (Armed Services Vocational Aptitude Battery) is a test written and sponsored by the military. It measures your skills and abilities in seven (7) different areas and relates them to available jobs in the military and civilian world. The ASVAB is offered once a year at Tahquitz High School.

COMPUTER PROGRAMS:

EUREKA is a computerized career information system for California. It provides complete details on more than 500 jobs now available in California. Eureka also includes complete information on schools, colleges, and financial aid programs.

NUMEROUS INTERNET BASED PROGRAMS

**These are included in the required career units taught in English and Social Studies classes.*

CAREER CENTER

Help with the Future!

The Career Center is a resource center for a wide variety of career and educational information. In addition to EUREKA, a computerized career information system, the center houses the latest available references and software on schools, jobs, career opportunities, scholarships, and financial aid.

Speakers representing various careers, colleges, trade and technical schools, and the military services are scheduled on campus for presentations throughout the year. The C.T.E. (Career Technical Education) program also has a student services representative available in the Library.

Students seeking employment are encouraged to check the local job bulletin board and obtain their work permit through the Registrar. For more information, please contact Renee Gardner at extension 218.

COLLEGE/CAREER

University of California Admission Requirements:

Admission requirements for the University of California (UC) system are based on high school coursework, G.P.A. from grades 10-12, scores on the SAT or ACT, and scores on two SAT Subject Tests (must be two different subject areas). The admission requirements for the University of California will also meet the minimum entrance requirements of most other colleges and universities in the United States. Individual universities may use additional criteria to determine admission. Minimum courses required for admission to the University of California are designated "College Prep" and meet the following A-G requirements:

A	History/Social Science	2 years required: 1 year World History and 1 year U.S. History
B	English	4 years of college preparatory English that include frequent and regular writing, and reading of classic and modern literature.
C	Mathematics	3 years required, 4 years recommended. Classes must include the topics of Algebra 1, Algebra 2, and Geometry.
D	Laboratory Science	2 years required, 3 years recommended of the following: Biology, Chemistry, Physics
E	Foreign Language	2 years required; 3 years recommended: At least 2 years of the same language.
F	Visual & Performing Arts	1 year required of: Art, Ceramics, Dance, Drama, Choir, Band, Multimedia, etc
G	College Preparatory Electives	1 year required: 1 additional year in any of the above A-F areas or other approved elective.

EMPLOYED BEFORE ENROLLMENT AND HAVE PERMISSION FROM COORDINATOR.

Work Experience Education (WEE) provides an important link between the school and the employer in supervising students who have local jobs using skills gained in vocational classes. Students enrolled in WEE meet in the classroom one hour/week. The remainder of the time, they are released early from school to go to work. An additional advantage to the student employee and his/her employer is, minor students enrolled in WEE are legally allowed to work more hours per day and to work later at night. These extended hours are reflected on the student's work permit.

When in the classroom setting, employment related subjects are discussed. To keep the class relevant, guest speakers are often invited to class. Weekly assignments are required, but can generally be completed right in class. This class may be repeated for credit, but no more than 20 credits of Work Experience Education will be allowed toward graduation requirements. **Job sites must be within the HUSD boundaries. Students holding jobs outside of school district boundaries will not be eligible to take this class.**

ENGLISH

Graduation Requirements: 40 credits (8 semesters)

College/University Requirements: Most colleges and universities require entrants to take four years of college prep English courses or electives, to earn a grade of “C” or better, pass the California High School Exit Exam.

NOTE: Students may be placed in an additional English course depending on results of the California Standardized tests, multiple assessments and/or grades.

Course Levels:

Non College Prep classes are designed to be California Standards based alternatives to more rigorous a-g approved -"College-Prep" course work. Non-College Prep classes meet the requirement for graduation and provide the foundation for extended learning at the Community College level. College Prep course work often emphasizes the integration of curriculum from complementing classes where as Non-College Prep strictly focuses on the required content as outlined by the California Standards for Content.

Intervention classes are specifically designed to complement concurrent core instruction for students in a given area. Intervention classes are math and English specific and provide elective credit. Intervention classes are not UC/Cal State a-g approved. Students enrolled in Intervention classes receive instruction designed to address learning gaps relating to material more than 3 years out of the current grade level.

College Prep classes for freshmen and sophomores provide instruction in vital reading, writing and thinking skills that are critical for students’ success in high school and beyond. Junior and Senior classes target students who will be going onto two or four year colleges providing them with instruction in interpretative reading, expository writing and analytical thinking.

Honors classes are offered for Freshmen and Sophomores whose reading and writing skills are at or above grade level, who want to pursue a more challenging course of study, and who are motivated to accept a more demanding work load. These classes provide instruction in the skills necessary for success in high school and college as well as providing students with a foundation for Advanced Placement study.

Advanced Placement classes follow the guidelines developed by The College Board and prepare juniors and seniors to take the Advanced Placement Test in English. Students enrolled in the class are required to take the Advanced Placement test and those who pass may earn college credit.
